

Lama Abdulhamid Aljohani

Information Technology Graduate

✉ lamaaljohani13@gmail.com ☎ 0563542407 🌐 Lama Aljohani 🔗 lama-alj.github.io/portfolio

Profile

Information Technology graduate passionate about digital transformation, data analysis, and emerging technologies. Experienced in leveraging data to improve business operations and efficiency. Combines technical skills with a strong interest in UI/UX to ensure practical, user-centered digital solutions.

Education

Bachelor of Information Technology

King Abdulaziz University, Jeddah, Saudi Arabia

Expected Graduation: July 2026

Experience

Saudi Aramco | Summer Training

Dhahran, Saudi Arabia | June – August 2025

- Developed an internal resource hub that minimized file retrieval time by optimizing UI/UX design and information architecture for departmental staff.
- Engineered an interactive assessment tool using JavaScript and JSON to evaluate employees on mandatory course material from their first three years, improving the accuracy of training effectiveness tracking.
- Optimized departmental workflows through strategic content restructuring, resulting in increased navigation efficiency and improved user experience for all team members.

Projects

Rafiq | AI-Powered Tourism Companion

Developed an AI-powered tourism application that generated personalized travel itineraries based on user preferences, integrating landmark image recognition and nearby activity recommendations.

Buildodoro | Productivity Tool

Designed a gamified Pomodoro application to support focus and task management through interactive reward mechanics and productivity-tracking features.

Tiny Genius | Educational App

Created an interactive learning platform that boosted children's engagement by implementing a gamified UI/UX design tailored for early childhood education.

Professional Skills

Technical Skills

Java | Python | SQL | HTML | CSS | MySQL | Power BI | Figma | Software Testing | Data Analysis | Microsoft Office (Excel, PowerPoint, Word)

Soft Skills

Communication | Teamwork | Problem-solving | Time management | Adaptability

Volunteer Experience

King Abdulaziz University HRM Future Horizon Forum | Volunteer Designer

Contributed to the design and preparation of visual materials and event content to support forum organization, branding, and audience engagement.

Saudi Aramco PDP Group | Event Support Volunteer

Assisted in event coordination and attendance tracking using Excel spreadsheets, contributing to smooth event operations and participant management.
